

SUBMERSIBLE CABLE

High-performance Submersible Cable designed for underwater and pump applications. Features high insulation resistance, excellent conductivity, heat resistance, and durable construction for reliable power supply in domestic, agricultural, and industrial use.

Use

Domestic
Use

Industrial
Use

SPECIFICATIONS

	CONDUCTOR	High Purity Copper
	INSULATION	High Grade PVC Compound
	TEMPERATURE RATING	Up to 70°C
	VOLTAGE RATING	Up to 1100V
