

## TWIN CORE ALUMINIUM

**STRONG | EFFICIENT | RELIABLE**

Twin Core Aluminium Cable designed for efficient power transmission and durable performance. Features high conductivity, strong insulation, heat resistance, and reliable operation for residential, commercial, and industrial electrical applications.

HIGH CONDUCTIVITY

STRONG INSULATION

HEAT RESISTANT

DURABLE PERFORMANCE

### APPLICATIONS

Residential Use

Commercial Use

Industrial Use

Power Distribution

### SPECIFICATIONS

	<b>CONDUCTOR</b>	High Purity Aluminium
	<b>INSULATION</b>	High Grade PVC Compound
	<b>TEMPERATURE RATING</b>	Up to 70°C
	<b>VOLTAGE RATING</b>	Up to 1100V

HIGH CONDUCTIVITY

STRONG INSULATION

HEAT RESISTANCE

DURABLE PERFORMANCE
